

HIGH SCHOOL VIDEO PRODUCTION EXCURSION

Celebrating 23 years of quality training in filmmaking

QSFT is offering High Schools, the opportunity to bring your film and media students to our campus for a 4 hour excursion to learn video production within a professional environment!

Based on your students' skills & knowledge, we will tailor a workshop to suit their needs. Using professional film production and post-production equipment, students will learn the importance of lighting and editing techniques. Trained by an industry professional, students will be exposed to a specialised filmmaking environment to capture the latest industry knowledge.

Given a script, students will experience how to shoot and edit a short film. Students not only take away industry knowledge but their own copy of completed film.

If you would like to immerse your students in this environment filled with professional and practical knowledge, act today and contact us to arrange your session.
